## CHECK YOUR OPTIONS

A GUIDE TO CHOOSING THE BEST ELECTRONICS FOR YOUR NEW QUINTREX BOAT.

All Quintrex boats are standard with all-new Active Imaging™ HD 3-in-1 Transducer - just select your desired display unit below.

### ActiveImaging<sup>HD</sup> TRANSDUCER

Step up to the ultimate fish finding clarity with new, high-definition Active Imaging™ HD sonar up to 1.2MHz. The Active Imaging HD transducer not only delivers three key sonar technologies – Lowrance® CHIRP, SideScan and DownScan Imaging™ – in one convenient package, but also features a new transducer design that boosts signal clarity.

### ELITE<sup>FS</sup>

ELITE FS supports the complete line-up of Lowrance® sonar and integrations in an easy to use and easy to install package. Elite FS is available in 9- and 7-inch models, comes preloaded with new, high detail C-MAP Discover OnBoard charts and now supports the new, high-resolution ActiveTarget 2 Live Sonar and Active Imaging HD 3-in-1 with a S3100 Sonar Module.

### HDS<sup>PRO</sup>

HDS® PRO sets the standard for underwater visibility. Get the highest resolution live sonar with ActiveTarget® 2. And ultra high definition clarity with new Active Imaging™ HD. Bow-to-stern boat control with the Ultimate Fishing System™, and detailed C-MAP® charting make HDS PRO the most powerful fishfinding tool available.

HDS PRO available in sizes 9", 10", 12" and 16".

# BUNDLE UP YOUR BOAT STYLE

We're all about less hassle and more fun. That's why we've made things simple with a range of boat bundles to suit your lifestyle, or should we say boat-style!

Keen to get straight out on the water with a you-beaut ride? Our entry models will suit you just fine, decked out with all the essentials to get you going.

Level up your Quintrex boat with one of our Fishing, Comfort or Captain's Bundles. Can't decide? Roll all three into one for the ultimate boating experience with our Pro option. It's what we call having the best of the best.

We make building your ideal boat easy. So, what are you waiting for? Check out our lineup to find your perfect boating match now.

## FISHING BUNDLE

All the extras to play hard or fish hard, bundled up and ready to hit the water.

## COMFORT BUNDLE

Love your creature comforts? Check out our pre-packaged editions in each range, for just chillin' on a lazy Sunday.

## CAPTAIN'S BUNDLE

Be the master of all you survey. Our Captain's Bundle comes complete with steering and control upgrades.

## PRO

The ultimate boating experience on selected models includes the Fishing, Comfort and Captain's Bundles all wrapped up so you can have the best of the best.

# HULLS MADE FOR AUSSIE WATERS

The Apex Hull is the most modern and ground-breaking design to hit the water. Through years of research and development it's the new benchmark for aluminium boating, revolutionising the pinnacle of on-water performance with an all-round smoother, stronger and more superior ride.

It's built to take choppy conditions head-on, scientifically formed with 4mm to 5mm bottom sheets and 3mm side sheets of the highest quality marine grade aluminium. The sculpted flare slices through water and runs strategically aft to maintain contact with the water while on the plane. Its wide chine opens the front of the hull, carrying the flare further up the stem line for an impressively smooth ride. Plus the wide chine gives great stability and grip when cornering with increased bow surface area for optimal lift and level attitude.

Enjoy more space with fully welded Raised Side Decks on select Apex models, which jumps up the internal volume by 20% along with the freeboard by 80mm.

We've upped the overall footprint of the Apex Hull by 5% with its forked bow design allowing for more functionality in the nose of the boat. The design allows for an expansive bow seating area in the Freestyler models and an impressive casting platform across the Frontier and Hornet ranges.

Up sized from every angle, the Apex Hull is an eyecatcher on the water, that dials up the boating experience with more comfort, safety and fishability.

Experience the APEX of boating with Quintrex.

Mastered with revolutionary stretch-forming techniques, Quintrex boats leave the marine industry in their wake with the best on-water experience in the market.

With a hull perfectly crafted to suit every waterway, Quintrex delivers the softest, driest, and safest ride for every boatie.

## FIGHTER SERIES BOW

The perfect fishing hull. Designed with a forked bow, the Fighter Series Hull increases the front deck and casting platform by 11%. With its impressive stability at rest, large storage capacity and easy installation of electric motors, the Fighter Series Bow makes fishing easy, exceeding all your angling needs. Traverse through estuaries, creeks and lakes for an inland fishing experience like no other.

## BLADE HULL

The versatile Blade Hull is one of the most sought-after hulls in the market. Quintrex has made waves in the industry with the innovative practices of stretch-forming aluminium, creating a vessel perfect for a wide range of conditions. The Blade Hull cuts through rough water with ease because of its sharp, sleek shape and increased deadrise.

Centered around a fine-tuned balance of convex and concave shapes, the Blade Hull delivers a lower planing speed and improved top-end speeds, increasing the overall energy efficiency of any boat.

## FLARED BOW

Our iconic Flared Bow design signifies a moment in history that changed the world of aluminium boating forever. First performed by founder, Terry Quantrell, the flared bow highlights a pivot-point which enabled the brand to deliver an incomparable ride performance. Through its concave shape, achieved only by stretch-forming aluminium, the Flared Bow deflects water spray away from the boat for a dry and comfortable ride.

# WE'VE GOT TRUE BLUE HISTORY

For 75 incredible years, Quintrex has been nurtured around a passion for boating with its foundations grounded in an ambition to deliver an on-water experience like no other. From its conception in 1945 to today, the brand has continued to reinvent boating by delivering hull designs that achieve an unrivalled ride performance thanks to innovative technologies created by its forefathers, Terry Quantrill and Arthur Arnold.

Pioneering stretch forming techniques, Quintrex expertly molds each hull by hand, which has earned the brand a reputation for an unmatched smooth, dry ride. Together with the strength, durability, and longevity of aluminium, Quintrex hulls cut through water with ease because of their concave and convex designs that were once only possible with fiberglass.

In finessing the skill of stretch forming, Quintrex utilises a purpose-built hydraulic system which elongates each

flat aluminium sheet over a precise forming dye. When changing the shape of the aluminium, the metal goes through a process called "Work Hardening". When performed correctly, the overall strength of the material is increased by altering the crystal structure of the aluminium, therefore making Quintrex boats safer and more reliable.

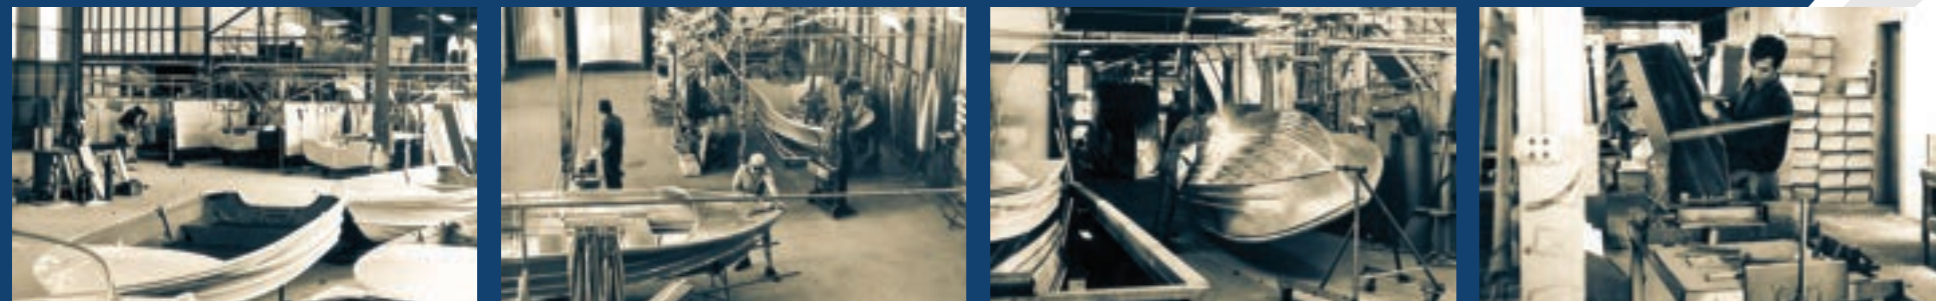

The combination of ingenuity and the investment in stretch forming practices has enabled the fruition of the industry renowned Blade Hull, Flared Bow and flagship Apex Hull. Whilst versatile in delivering a perfect boat for every waterway, each hull variation is designed with a flawless balance – a sharp entry to deliver comfortable handling while underway and a strong structure to achieve stability while at rest.

Over 350 skilled professionals are at the heart of Quintrex. With an eye for detail and four quality control

points throughout the Gold Coast factory, each boat is hand built from scratch with quality at the crux of creation. Crafted by the best in the trade from design conception to welding, paint, and finish, you can be assured that your boat will last for generations to come.

Perfected over decades, Quintrex delivers industry leading designs catered to every lifestyle. Now partnered with BRP, a global leader in powersports who owns a large portfolio of world renowned, industry-leading brands including Ski-Doo, Lynx, Can-Am and much more, Quintrex has a bright future filled with utmost quality and innovation ahead. After 75 years of success, the adventure has only just begun.

Jump aboard our journey and discover more exciting adventures for decades to come with Quintrex.

# QUINTREX WHY GO ANYWHERE ELSE?

## 5 YEAR WARRANTY

Backing its strong reputation of quality and passion towards crafting boats that last for generations, Quintrex will commit 5-years factory backed warranty on all new purchases. Simply follow the dealer maintenance schedule outlined in the Owner's Manual to qualify for the full 5-year term.\*

## DEALER NETWORK

As a proud leader in aluminium boat manufacturing that is recognised as the most successful business partner in the industry, Quintrex boasts the best dealer network in Australia. Armed with over 60 dealerships, scattered right across the country, Quintrex guarantees a wealth of boating expertise right at your fingertips plus ongoing support Australia-wide. With a passionate, experienced and welcoming team of dealers, Quintrex is your one-stop shop for boats, servicing, advice and boating accessories.

\*Terms and conditions apply.  
Consult your Quintrex Owner's Manual.

## BEST RESALE VALUE IN THE MARKET

As a testament to the superior name and product, Quintrex is renowned for having the best resale value in the market. Crafted with quality front of mind, Quintrex boats maintain a superior boating experience and rideability for generations. So, if you are looking to upgrade your Quinnie, you can rest assured that you will get a pretty penny for your second-hand boat.

Hand built in Australia, with the  
best resale value in the market.

If you ever want to let it go!

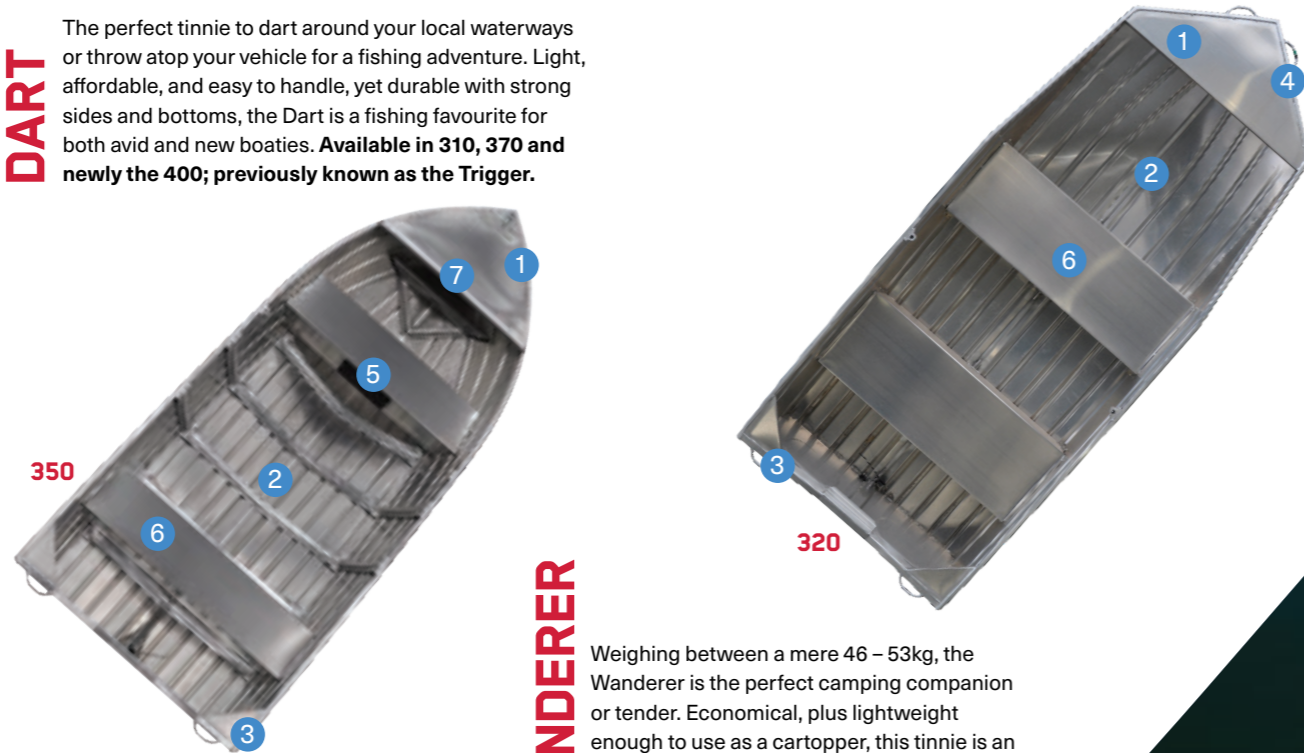

## A BOAT TO SUIT EVERYONE

With an exciting lineup of over 100 models, Quintrex arguably has one of the most versatile and diverse boat collections in the industry. Thanks to a passionate team of Research and Development professionals, each boat is perfectly crafted to meet customer demand, uphold the highest quality and safety standards plus deliver an unparalleled boating experience. From small tinnies, to a family runabout or bowrider, premier inland fishing vessels and offshore plate boats, Quintrex has you covered.

True to the name, Quintrex's mighty Wanderers and Cartoppers are built for the great nomads and adventurers. Decked out with wide ribs for stability and impressive functional space, it's a fishing must-have that's perfect for zipping around lakes and estuaries. Lightweight, economical and durable, throw your Quinnie Cartopper on your vehicle, camper trailer or caravan and let the adventure begin.

**DART** The perfect tinnie to dart around your local waterways or throw atop your vehicle for a fishing adventure. Light, affordable, and easy to handle, yet durable with strong sides and bottoms, the Dart is a fishing favourite for both avid and new boaties. **Available in 310, 370 and newly the 400; previously known as the Trigger.**

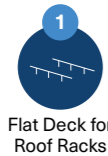

**WANDERER** Weighing between a mere 46 – 53kg, the Wanderer is the perfect camping companion or tender. Economical, plus lightweight enough to use as a cartopper, this tinnie is an attractive asset that boasts versatility whilst being budget friendly. **Available in 300, 320 and 360.**

# TRIDENT FEATURES

## TRANSOM DOOR & REAR LADDER

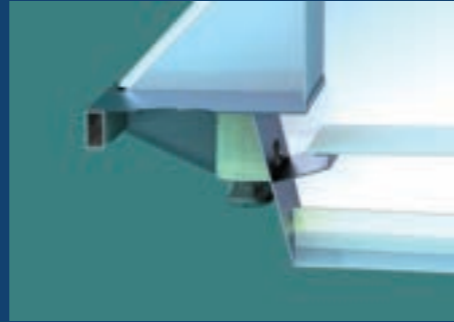

Whether you are an avid spear fisherman, diver, or care for a dip whilst out on the water, the Trident has you covered. With a transom door and rear ladder standard across all models, entry and exit at the transom are not only easy but safe. Designed to meet the needs of all types of fishermen, the Trident is your perfect offshore Plate Boat.

## CUTTING BOARD

Factory-fitted with your fishing essentials, the Trident features a versatile bait station that sits neatly at the transom. Complete with a cutting board, rod holders, a knife sheath and tackle or cup holders, it makes reeling in your catch easy. For bulk tackle storage, stainless steel rod holders and a larger cutting board, option up to the Deluxe Bait Station.

## SCUPPER DRAINAGE SYSTEM

From keel to gunwale, your Trident has been built with care to deliver a safe and comfortable ride in all conditions. A carefully crafted self-draining treadplate floor with automatic, non-return scupper drainage comes standard in all Trident vessels to ensure the prevention of excessive water intake. Wide funnels, strategically placed at the transom, remove water from the hull, then filters it through flexible hosing which is designed to prevent water reentry.

## REEL EASY ROD HOLDERS

More than just your standard rocket launchers – the “Reel Easy Rod Holders” make stowing and accessing your fishing rods an effortless feat. The six rod holders are maneuverable with a simple quick-release pin system and come standard on all Trident Hard Top models.

## HARD TOP

Every day is a ripper with the Trident Hard Top, no matter the weather. Whilst the wrap-around shelter protects you from the elements, the laminated hardened glass windscreen, wiper kit and sliding side windows, ensure you have optimal visibility. The fish still bite, no matter the weather – will you be there to catch them?

## LIVE BAIT TANK

Have peace of mind that your baits will remain alive and well whilst stored in the live bait tank, standard with every Trident. Water continually circulates through the tank to oxygenate the water whilst underway due to an external pickup, while its glass window allows for easy viewing. Installed in the back deck, it neighbours the bait station for easy fishing prep.

We are extremely happy with the package. Awesome trailer to tow, release and retrieve due to the easy catch system. Boat is extremely comfortable and dry due to the hardtop and has plenty of all round visibility.

- Rod Lestrage

## THE TRIDENT HISTORY

Building on the powerhouse of Quintrex boats, Australia's leading aluminium boat brand launched its first ever brand-exclusive plate lineup in 2012 with the Trident cuddy-cabin range and has since boomed, quickly establishing itself as the king of the ocean.

In line with Quintrex's long-rooted reputation of being the industry-leader in marine since its inception in 1945, the Trident range is derived from years of research and development, delivering a groundbreaking offshore boat. Innovation and revolutionary technologies such as aluminium stretch-forming achieve a superior ride experience with the Blade Hull, a staple in the Trident range. Concave flared side sheets and bottom sheets deliver a sharper entry point, increased deadrise and a narrower shoulder that allows the hull to cut through choppy conditions with ease. The Trident is grounded in strength, with 5mm plate bottom sides and a strategic egg-crate construction with fully-welded 5mm longitudinal and latitudinal ribs.

The fish are on – take them head on with the industry leading Trident plate boat.

# STRIPES & COLOURS

## HULL STRIPES

- Left Stripe
- Always Anthracite\*
- Right Stripe

\*White on painted hulls

## STRIPES COLOURS

All colours shown are as close as the reproduction process allows.

Donning an all-new look, the entire Quintrex range has been relaunched with a fresh stripe design.

The stunning pattern will become a recognisable cornerstone of the Quintrex brand on and off the water. Make the design your own with a two-toned hull and specialised striping of your chosen colours. All stripes are installed with high quality material and utmost care in the Australian factory.

# TRAILERS

Our trailers are specially calibrated to each boat, guaranteed to deliver the safest wheels for your ride. Made with marine grade aluminium and structurally tested to withstand the torture track, Quintrex trailers maintain safe operation and integrity over 100,000km on Australia's grueling roads.

Aluminium makes our trailers strong, durable and resistant to rust whilst being light and flexible. As opposed to box section frames, Quintrex uses C channels for the main trailer structure to prevent the retention of water.

You can also purchase a stand-alone trailer through Quintrex's loose trailer program, meaning everyone can experience the Quintrex difference.

Either upgrading an old trailer or matchmaking your new boat we have you covered with reliable wheels backed by factory warranty.
